

## HPVcancerFree Talking Points for Champions

- HPVcancerFree is a great resource for parents of patients ages 10-17
- The app provides:
  - Education about HPV and the HPV vaccine
  - Answers to common questions parents have about HPV and the HPV vaccine
  - A notes section for parents to save questions for their provider
  - Reminders for follow-up doses
- Parents can access this free app by searching “HPVcancerFree” in the Apple App Store (iPhone users) or Google Play Store (Android users)
- Clinic staff should provide the HPVcancerFree Flyer to parents of 10-17-year-old patients during both well and sick child visits
